

# Nuova: Point of View Writing

**Time:** One class period

**Listen to Nuova** (from website) (9 minutes)

**Discuss anthropomorphism with class.**

Would they agree that many, if not all, animals are sentient? Or that they can at least communicate, and collaborate?

Write about an event they had with an animal, from the POV of the animal. It can be their pet (“when are they going to check my food bowl”), or a mosquito that was circling them, a fish they caught, etc. It can even be an animal they have seen communicating with another animal.

Give students time to discuss and have them write at home, or in class.
